

COUNCIL DISCUSS FRANCHISE FOR INTERURBAN HERE

All but Three Clauses in Plan
Agreed Upon by Commis-
sioners and Officials.

ROUTE OF LINE STICKLER

Question Will Come to a Vote of Rock
Island People at Election to
Be Held in November.

Mayor H. M. Schriver and the city commissioners held an informal session of the council this morning with the officers of the Rock Island Southern at which time the proposed franchise of the interurban for a downtown terminal as prepared by the mayor and City Attorney J. F. Witter was discussed.

Three points are not settled, all of the other clauses in the plans having been agreed upon by both interurban officials and council members.

The question of the use of "T" rails, the route, and the voltage in this city are the only matters of difference between the two factions.

The probable route of the company will be east on Sixth avenue to Sixteenth street, thence to First avenue, east to Seventeenth street and thence to Market square, where the city will ask the Tri-City railway company to erect a waiting station and baggage room.

The city will demand that the company use girder rails. The Tri-City concern uses only such type, but the Southern people complain that if the "T" rail is not used, the company will be caused considerable trouble. The city objects to the "T" rail as it makes it difficult for wagons to get out of the track, when the wheels are once lodged inside.

The company on its lines in the country operates with 16,000 volts alternating current. This will be cut down to the minimum, consistent with the ability of the cars to run. The Tri-City lines have 650 volts direct current.

Twenty Year Franchise.

The franchise is for 20 years. It provides that within three months after adoption by the council, the company commence the work of laying the rails and that six months after that the work be completed and cars running into the city.

The vehicles of the company must not proceed on the streets of the city over 12 miles an hour and provisions for four stops are also made in the proposed plans.

Only passenger, baggage and express can be carried on the line, and no freight or live stock will be allowed on cars in this city. The passenger vehicles must be operated with electricity.

The franchise also provides that policemen, mail carriers and firemen in uniform be carried free on the cars. It also contains an agreement with the

company that the city may use the interurban poles for wires of police or fire alarm systems.

The company also agrees to furnish free current for the operation of a sewer pump on the streets the line travels over.

Route Question Stickler.

The question of the route required the most time for consideration this morning. The first plan discussed was for a route on Fifth avenue, but this was not looked upon favorably by the company as it proposes to erect only a single track and Fifth avenue could not be used, as a big sewer main is located in the center of the street.

After the franchise is agreed upon and the property owners along the way give frontage rights the matter must come to a vote of the people before its final adoption by the council.

Charges of the embezzlement of \$5 were preferred against C. F. Vogt of this city by the People's Credit company of Moline this morning.

Vogt was released to appear for trial on bonds of \$50, which he furnished. He was an employee of the local U. S. engineers' office, but has not been working for the government for the past several weeks. He claims that he turned in all money he collected.

She had been suffering for over two years with a complication of diseases. She was taken ill while visiting with her parents at Springfield in July, 1912, and was unable to come home until July 3 of this year. She seemed in good spirits last evening and chatted pleasantly with members of the family before retiring. She was seized with a stroke shortly after midnight, however, and sank rapidly to the end.

She was united in marriage to John W. Carse, March 31, 1909, at Springfield. After the wedding the couple came to this city and she had made her home here since. During her residence in this city her happy manner and sunny disposition won her many friends. She was a member of the Helen Gould auxiliary of the Presbyterian church at Springfield.

Those left to mourn her passing are her husband, to whom is extended the sincere sympathy of many friends, and parents, Mr. and Mrs. C. L. Elliott, one sister, Miss Bay, and two brothers, Guy and Jay, all of Springfield.

Short services will be conducted from the home at 8 o'clock this evening. The remains will be sent to Springfield, Ill., tomorrow morning, and services held from the home of her parents there Sunday afternoon.

AGED COUPLE ARE ROBBED BY DIPS

Pickpockets Secure \$90 Presumably While Two Were Changing Trains Here.

An aged couple who were passing through Rock Island reported shortly after the noon eastbound Rock Island train pulled out of the station yesterday that they had been robbed of a purse containing \$90.

It is thought that the pocketbook was taken while the train was stopped here and while the old couple were boarding it, as two suspicious appearing men were seen by the train crew to rush through the car and get off just previous to the train leaving the city.

After the couple discovered the theft it was reported to a station agent east of here, who in turn notified the local offices of the Rock Island lines. The police were informed of the theft, and immediately began working on the case, although no clues were left.

The names of the two old people and their address are unknown to the police. It is thought that the dips worked on a platform while the passengers were loading and unloading. Whether others fell victims to their work or not is not known, but the one case is all reported.
